

Executive Biography

Rakesh Kaushika
Director, Enterprise Data Services

Rakesh is responsible for leading the transformation of Preferred Mutual's data warehouse and reporting systems, leveraging modern data infrastructure and architectures to strengthen the company's enterprise data capabilities. In his role, he aligns technical, business, and financial considerations to ensure the success of Preferred Mutual's data strategy.

With more than 25 years of experience in enterprise data services, analytics, business intelligence, application development, and IT architecture—primarily within the property and casualty insurance industry—Rakesh brings extensive expertise to his role. Since joining Preferred Mutual in 2022, he has been an integral member of the company's transformation leadership and IT teams, directing key data initiatives and driving meaningful advancements.

Rakesh holds an M.B.A. in Project Management from the University of Wisconsin–Oshkosh and a Bachelor of Engineering degree in Electrical Engineering from Delhi College of Engineering.
